Student Media Consent & Release

At NEMPAC, we love celebrating our students and programs through photos, video, and audio recordings that help tell our story and the impact of our programming to the community-at-large.

As part of participation in programs at the North End Music & Performing Arts Center (NEMPAC), students may be photographed, filmed, and/or recorded during classes, rehearsals, shareformances, recitals, full productions, and other program-related activities.

These materials may be used by NEMPAC for educational, promotional, and institutional purposes, including but not limited to social media, email communications, printed materials, website content, press features, and archival documentation.

By registering for a NEMPAC program, adult students, and parents or guardians of minor students, acknowledge and agree that NEMPAC may use a student's image, voice, name, and/or artistic work as captured in photo, video, or audio recordings for the purposes described above.

Families or individual students who do not prefer to be included in photography or video recordings must notify NEMPAC in writing **prior to the start of the program**. NEMPAC will make reasonable efforts to accommodate such requests.

For questions or to submit a request, please contact NEMPAC Marketing and Communications Manager Will Neely at wneely@nempacboston.org or by calling 857-239-9997.
